

# **Lake Edge Lutheran Church - Building Use Policy**

(to be in use until further notice)

Approved by council as of 6/21/21

Based on current CDC, Wisconsin Council of Churches and Synod guidelines, we are updating our building use policy. We continue to monitor this policy in light of the changing pandemic.

- The church building is currently open for worship. If you are fully vaccinated, masks are optional. If you are not fully vaccinated, or you are vulnerable in any way to the effects of COVID, masks are recommended.
- In addition, weddings, funerals, baptisms, meetings of internal or external groups, Bible studies, and other gatherings are able to be held in the church building, including serving food. Meeting and event organizers should contact the church office to schedule the space they want to use in advance to avoid conflicts.
- All areas of the building are open, including the office. Church members may enter the building without alerting church staff.
